

EDUCATION

KPR Institute of Engineering and Technology
B.E Computer Science and Engineering; GPA: 8.52

Coimbatore, India
Sep 2023 - May 2027

SKILLS SUMMARY

- **Languages** : Java , Python , C, JavaScript, SQL
- **Core CS** : Data Structures & Algorithms, OOP, Operating Systems, Software Design
- **Full-stack** : HTML, CSS, React.js , Node.js , Express.js , Tailwind, PostgreSQL
- **Cloud & AI/ML** : YOLO, ML and DL Algorithms, Model Training, Docker, Git, AWS, Linux, GitHub, Vercel, Render
- **Tools** : Jupyter, VS Code, Postman, IntelliJ
- **Coding Profiles:** [Leetcode](#) | [GeekForGeeks](#) | [HackerRank](#)

WORK EXPERIENCE

- Junior Developer INTERN | Hyperready Technology |

October 2025 - February 2026

 - Built and enhanced 10+ production features using React.js, including mobile-responsive UI improvements and resolving high-priority UI bugs in a live product.
 - Integrated frontend with NestJS backend APIs using Prisma ORM, ensuring reliable data flow and feature stability.
 - Developed advanced dashboard functionality such as drill-through analytics and real-time LLM token usage wallet updates.
- Artificial Intelligence INTERN | Infosys Springboard |

September 2025 - October 2025

 - Developed an AI-based assistive system using YOLO for real-time detection of 5+ object categories, improving environmental awareness for visually challenged users.
 - Integrated real-time text-to-speech feedback, reducing user navigation errors by ~30% during testing.Design a visually challenged-friendly web interface for intuitive interaction and accessibility.
- Backend Developer INTERN | Stud AI |

January 2025 - March 2025

 - Built a daily streak tracking system, improving learner retention by 25%.Implemented Laravel middleware to manage subscription-based access control.
 - Designed and implemented a reward points and leaderboard module, increasing student engagement and competition within the platform.
 - Worked within MVC architecture using PHP, MySQL, and Blade templating.
- Software Engineer INTERN (Remote) | GS |

October 24 - November 2024

 - Optimized the signal processing pipeline by replacing FIR filters with FFT, improving computational efficiency and accelerating machine learning model training by 25%.
 - Modernized legacy systems by converting C-based signal processing software to Python, enabling greater automation, maintainability, and scalability for future enhancements.
 - Engineered a dynamic signal trimming algorithm to intelligently preprocess 100+ signal samples.

PROJECTS

- FocusAI Productive Assistant

May 2025 - June 2025

 - Built a scalable productivity tracking system using a Chrome extension & Electron app, capturing real-time behavioral data. Implemented a Node.js and Python backend to store behavioral data in MongoDB, enabling scalable analytics.
 - Designed an ML-based chatbot to offer personalized feedback, improving productivity awareness by 20%.
 - Improved user engagement through interactive dashboards and visualizations, offering daily, weekly, and category-based Usage summaries enhance engagement and insight clarity by 40%.
- Venue-Based Live Quiz Platform | [LINK](#)

November 2025

 - Built and deployed a real-time quiz platform used by 100+ concurrent participants across 8+ venues with smooth simultaneous engagement.
 - Implemented QR-based venue segregation, question expiration logic, dynamic scoring, and live leaderboard updates.
- Smart Parking System | [LINK](#)

November 2024 - December 2024

 - Engineered a parking slot booking platform with real-time availability and secure authentication, reducing booking time by ~50%. Deployed fullstack app with Firebase integration.
 - The app features real-time availability and easy booking, prioritizing user convenience and vehicle safety.

CERTIFICATES

Red Hat Certified System Administrator (RHCSA) | [CERTIFICATE](#)
Github Foundations | [CERTIFICATE](#)
Webdevelopment Bootcamp(Udemy) | [CERTIFICATE](#)
MongoDB Associate Developer | [CERTIFICATE](#)

ACHIEVEMENTS

3rd Place – IIT Bombay eYantra out of 532 teams
Solved 500+ DSA Problems on leetcode
